

I am special

This is a nice sheet to go at the front of a new section of a child's Learning Journey file. For example, if you move then 'up' an age and stage of learning and development - or maybe you could fill it in when they have had a birthday.

Where possible you should involve parents in completing all paperwork relating to their child including any little extra bits and bobs like this 'I am Special' sheet. For example -

My favourite toys...

Mum says I love playing with Spiderman at home and dressing up

Or...

My special friends and favourite people...

Dad says I love going to granny's house at the weekend and sit on her knee.

Or...

You might ask parents for a photo from home - if they do not have a printer, you can ask them to email it to you and print it for them.

I am special

My name is...

My date of birth...

Here I am!

The things I like doing best...

I am happiest when...

My favourite toys...

My special friends and favourite people...
